Hancock Bank planning new

headquarters The Board of Directors of the Hancock Bank, following their regular monthly meeting for August, has revealed that the Bank plans to build a

new high-rise headquarters building in downtown Gulfport. In making the announcement for the Board, Leo W. Seal, Jr., President, said it will be several weeks before final details of the structure can be announced as negotiations are currently

underway with prospective tenants in the new building to determine their specific needs. The building will be located adjacent to the present bank tower on the old H&H Hotel property and will be of a type and design that will be a credit to the downtown business district. Plans

also include a parking facility to accommodate some 200 automobiles.

Ladner read a letter from the organization giving their unanimous support for the proposed facility. The letter was as follows:

Dear Councilmen: The Bay-Waveland Gun and Rod Club as unanimously endorsed support for a public marina to be constructed at the American Legion Pier located at the

foot of Washington Street. This club would like to urge your endorsement and support in this matter. We feel that through a joint effort by the city and county governing boards, that this endeavor could

become a reality in a short time. The club would like to pose the following questions to the council for

their consideration: (1) Does the council support the construction of the marina? (2) Is the council willing to meet in

joint session with the Hancock County Board of Supervisors? (3) Is the city council willing to sponsor such a project?

This club stands ready to assist in any way that it can in furthering this project.

We look forward to your reply to the

Sincerely. Frank Ladner, President Bay-Waveland Gun &

Ladner said the marina had been in the mill for the past three years and the G&R Club felt it was time to move forward with the plans for the needed facility. The president said the club carries some 90 members at present and usually increases to approximately 115 yearly. They pledged their support in getting the facility built and urged the council and board of supervisors to

work for the completition of the marina. Noting that Bay St. Louis has a large body of water and no facility, Ladner stated. "It's embarrassing for jour citizens to bring visitors or friends and have no place in which to put your boat

### (4) What other action can the council in the water. There are shrimpers, Wreck involves four vehicles

### Free glaucoma eye test set

The county health department in Bay St. Louis is now providing a screening program for glaucoma for those persons 65 years of age or older.

Glaucoma is the leading cause of preventable blindness. This condition, which involves increased pressure within the eyeball, will gradually destroy the nerve fibers in the eyes, causing total blindness.

Signs and symptoms suggesting Chronic Glaucoma include the following: Frequent changes of glasses, none of which is satisfactory; Inability to adjust the eyes to darkened rooms, such as theatres; Loss of side vision; Blurred or foggy vision; Rainbowcolored rings around lights; Difficulty

in focussing on close work. Here are some points to remember about glaucoma:

1) Is found primarily in people over 35 years of age; 2) Exists for quite some time without symptoms; 3) Can be controlled with proper treatment; 4) Is controlled easier when detected in early stages; 5) Occurs more often in families of people with this disease. Fortunately, there is a quick, simple,

painless testing procedure for glaucoma. Don't neglect your eyes - take advantage of this opportunity!, a health

department spokesman said. The Testing Date will be Aug. 19 from 8:30 - 9:30 a.m.

### Chamber board to meet August 23rd

The regular August meeting of the Board of Directors for the Hancock County Chamber of Commerce will be held at:

7:30 P.M., Tuesday, August 23 in Board Room, Hancock County Chamber of Commerce Also, on the agenda, will be a status report on the Hancock County Brochure, the I-10-607 Hospitality

Station and the Farmers Market. Plans for the work program for the rest of the year will be discussed.

Forestry Sponsoring Tour Mississippi Forestry Forestry Association, 620 Association is sponsoring a Trade Mission Tour to the Redwood Empire in October. Non-MFA members are invited to participate, says Steve Webb, Philadelphia, MFA president.

The group will depart Jackson on Sunday, October 23, and return on October 30. The intinerary includes Las Vegas and San Francisco, in addition to Eureka, Fort Bragg, Jacoby Creek, Samoa, all in redwood country, and the Asti wine region.

A drive through the massive redwood forests along the fabled "Avenue of the Giants" with a picnic-style luncheon in a peaceful redwood grove will be another tour feature.

Travel is by scheduled airline and chartered bus. Total cost per person is \$831, based on double occupancy. Persons interested in the tour may contact Mississippi

North State Street, Jackson, MS 39201.

Ladner had urged the council to meetwith the Hancock County Board of Supervisors in an effort to get a joint project started. Council President James Thriffley informed Ladner that funding for such a project, which would come from the Bureau of Outdoor Recreation, would have to go to a project and not to a certain community.

VEHICLE ASSESSMENT A resolution was passed approving the motor vehicle assessment. Motion by Councilman Harry Farve, seconded by Seymour, unanimous vote.

ZONING Approval was given unanimously to recommendations from the Board of Adjustment for variances in the zoning .ordinance for property owned by Maurice Colly and Reta Kessell.

**OVERPASS** 

Harold Saucier met with the council to ask questions concerning the proposed overpass for the city. Saucier asked how a figure of \$89,000 could be given as a cost for an overpass when there were no set of plans. Thriffley said, as with most projects, that an estimate has to be made and at this time a set of plans are being drawn. Saucier also questioned the need of an overpass and wondered if it would be used by school children. Thriffley responded again, saying it would be required that a policeman still be stationed at the overpass area to see that the children do indeed use it. It was noted that if the overpass had been located at the crossing when an accident occured in the past, that the children would have been out of the way of traffic and would not have been injured. Thriffley added, "If it would take a million dollars, it would be worth it to save the lives of our kids."

In another matter related to the overpass, the council passed a motion to total limitation on the project. Councilman Wagner made the motion to limit the total cost of the project to \$100,000, which included inspection and engineering fees. The motion was adopted unanimously.

#### Supervisors...

board agreed if unforseen expenses occured they might be able to make adjustments to assist the sheriff.

HIGHWAY 90 The mayor read a letter from Anthony Trapani, Jr. concerning a number of problems on Highway 90.

Honorable Mayor Bennettand City

City Hall Bay St. Louis, Miss. \$9520

His Honor and Gentlemen:

The subejet of this letter is to bring to your attention the existing safety situation of U.S. Highway 90. First, the speed limit through Bay St.

Louis city limits is 50 MPH. Every city that U.S. 90 passes through from Pascagoula to Gulfport have a speed limit of 30-40 MPH, leaving Long Beach, Pass Christian, Bay St. Louis and Waveland with a 50 MPH speed limit. The highway at Long Beach and Pass Christian runs along the beach and there is no traffic crossing the highway, but in Bay St. Louis U.S. 90 divides our city from schools and shopping centers. The speed limit of 35 MPH should start on the U.S. 90 bridge one-half mile from the west end and continue through the city limits. Beginning this speed limit one-half mile before getting off the bridge will enable large trucks and cars time to stop if the light is changing to red. As it is now, these vehicles try to beat the light when speeding at 50 MPH plus. At this speed, if the light is changing, they do not have time to stop. As we know there has been a number of accidents, some fatalities at this intersection. The same situation exists at the Dunbar and Main Street intersections. Secondly, the traffic lights on U.S. 90

in Bay St. Louis are the only ones from the Alabama state line to Waveland Shopping Center that have no anti-glare shields and-or anti-sway wires installed. These anti-glare shields and wires were installed at the intersection of Waveland Avenue and Highway 90 last week. The lights at the bridge and Beach Road should be lower. When heading west into the afternoon sun, if you are driving with your sunvisor down, you cannot see the lights. These lights should be on stanchions or at least one stanchion light be installed on the medium at eye level. The same could apply to the next two in-

It is the opinion of the writer that the enforcement of the 35 MPH speed limit and the updating of the traffic lights would greatly add to the safety of the ditizens and tourists of Bay St. Louis.

'But coach, you don't have to take the tests.'

Karla Tartavoulle took the busy afternoon with a grain of salt as she supervised tests and directed traffic.

Thanks to a lady doctor

### Hawks continue practice

Physical examinations are not supposed to be comical. They are serious matters with a serious purpose. Dr. Helen McGehee knows the purpose of a physical and knows how to administer one. She was also willing to give the Hancock North Central football players their required exams last week. That was enough for Hancock North Central coach Irvin Favre. Although Dr. McGehee knows about physicals, some of the Hancock players didn't until recently.

The Hancock North Central team, like teams all over the state, was getting ready to work out in pads. State law requires all players to have a thorough physical examination before they are allowed to go through any physical contact during practice.

Although none of the players seemed to mind having a physical before the season, some did get a bit skeptical when they found they would be administered by a lady doctor.

Favre searched desperately for a doctor to administer the physicals so his team could work out in pads Tuesday of this week. That's what took his Hawks to the office of Dr. McGehee last Friday.

"Every doctor I talked to told me it would be at least a week before they could do the physicals," said Favre as he sat in the waiting room of the small, Waveland office. "If we had to wait that long we would have been way behind in our practice and would never be ready for the first game of the season.

"I talked to Dr. McGehee earlier this week and she said she could give the physicals today. That was all there was to it."

"None of the players knew it was a woman doctor. At least I didn't tell them. I think some of them caught on today though,"

didn't tell them. I think some of them caught on today though," added the coach. Judging by the looks on the players faces, the coach didn't tell them that Dr. McGehee would be assisted by her husband either.

As he talked, Favre's players waited nervously outside the

office. The doctor had the usual number of patients in her office and the players had to wait for awhile before she could see them. During the wait there wasn't the usual amount of horseplay and noise associated with that many teenagers gathered in one group. There was, of course, some chatter but it sounded apprehensive as the boys pondered what waited inside for them.

"Some of the older players have had these things before and

"Some of the older players have had these things before and don't seem to be too concerned. They have been kind of laying it on the younger ones on the way over here. The ones going through it for the first time don't really know what to expect," grinned Favre.

The players, as they came in the door, tried to act calm but their faces gave them away. There were nervous glances around the room and quiet giggles as one player would step out of an examining room and another would step in.

The players kept up a brave front and cooperated with the various steps in the examination. Although everyone on hand tried their best to keep the process running smoothly, confusion still reigned. Players had to be hustled from one room to another for blood pressure tests, and all the other examinations.

Serving as traffic directors and administering tests, receptionist Karla Tartavoulle and nurse Lydia Favre, kept the series from coming to a stand still.

Story and photos

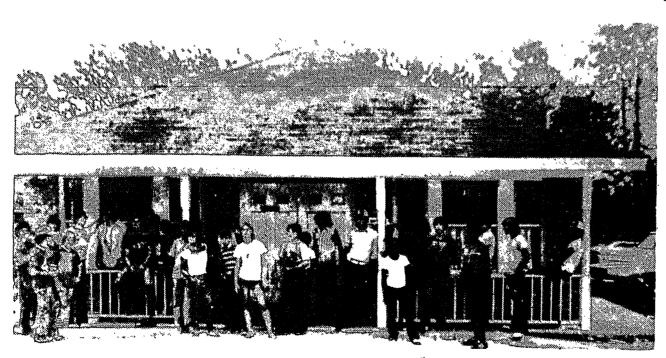

Although the players tried to cooperate, there were some minor problems at specimen time. As the lines grew longer, the receptionist was heard informing some of the more zealous athletes that it was not necessary to fill the bottles for the urinalysis. A shout of "It's not a contest!" came from somewhere in the crowd.

On the other hand there were some who, try as they might, could not contribute to the ever growing stack of bottles.

As the afternoon wore on into early evening even the obstacles of mother nature were conquered and the physicals were completed. Thanks to three understanding ladies and a helpful husband, the Hancock North Central football team can now go on with practice with a clean bill of health.

Lydia Favre handled the blood pressure check.

Due to crowding and confusion players were only admitted in small numbers while others waited outside.

There were some nervous smiles during the waiting period as a player looks to his coach for reassurance.

offensi

An understanding Dr. McGehee handled the respiration and heartbeat tests while her husband assisted.

The line grew long as players filed in for their preseason physicals.

All over the nation American males are tossing and kicking and running with footballs, all the way from 8year-olds in the backyard to junior and senior high and college teams to the big bruisers of the professional

Football is a rough contact sport and inevitably will produce its full quota of bumps and bruises, strains and sprains, cuts and gashes. Most of these aren't serious and the lads concerned are back in the game shortly.

A thorough medical examination is highly important for boys preparing to go out for football to make certain that there is no physical condition that should

knocks of the game.

Proper physical ditioning hardens the body and increases resistance to fatigue, thus helping prevent injury. A minimum of three weeks of conditioning are recommended prior to the first game of the season. Coaches and team physicians are alert to the fact that many injuries occur when the player is tiring and thus less alert.

Good coaching enables the players to perform better and thus be less prone to injury. Good officiating makes for better games and also helps protect players. Proper equipment and procedures and medical care, with a physician available during practice drills and on the be noted before beginning the major factors in cutting ciples.

extreme heat of early season days also are important. Many coaches now schedule the hot weather workouts in early morning and late afternoon to avoid the heat of the day. The old rule aginst drinking water during drills and games has long since been proved invalid and dangerous. Water and salt are necessary to replace fluids lost through copious sweating.

If your boy is playing on an orgainized team, the chances are good that all of these safeguards are observed. If most of his playing is done on a vacant lot in the afternoons and on Saturdays, it becomes the parents' responsibility to see that the player has the bench during games are benefit of the safety prin-

## BUBBA OUSTALET

### Time Magazine **National Quality Award Dealer** Winner of the Year

The Time Magazine National Quality Dealer Award Winner of the Year was Bubba Oustalet, a name which is now a household word along the Mississippi Gulf Coast as well as Louisiana The Mississippi and Louisiana dealerships of Bubba Oustalet were signally honored by Time Magazine for "his outstanding performance, both as a good

automobile dealer and as a valued citizen of his community As a Louisiana automobile dealer, Bubba Oustalet became the first dealer in that state ever to win the award, and as a Mississippi automobile dealer. Bubba Oustalet is the 2nd winner in history and doubly proud of its "Oscar of the Year," the National Time Magazine Quality Dealer Award of 1977

We of Bubba Oustalet also thank the 21,000 Ford Motor Company dealers, General Motors dealers, AMC dealers, Chrysler dealers, and Import dealers — as members of the National Automobile Dealers Association of America -- for their vote of confidence in selecting us for

the industry's highest honor. We also thank Time Magazine and the University of Michigan, who sponsor and ultimately (in secret evaluation) select the 10 top automobile dealers from America's 21,000 dealer body. And last, but not least, we thank all members of the Bubba Oustalet team that established performance records for 25 years and was awarded numerous national and state automotive honors contributing to the national

The following automotive, civic, and professional activities were listed by Time Magazin∉ as being responsible for the selection of Bubba Oustalet as a National Time Magazine Quality Dealer Award

He is president of Bubba Oustalet Ford, Bubba Oustalet Lincoln-Mercury, Bubba Oustalet Toyota, Bubba Oustalet Ford of Gulfport, Mississippi. Bubba Oustalet Leasing Company and Bubba Oustalet

A native of New Orleans, Louisiana, Oustalet received his Bachelor's Degree 'n Mechanical Engineering from Louisiana State University in 1947. He was president of Delta Chi, and a member of the Inter-Fraternity Council, the American Society of Mechanical Engineers, and the Society of Aeronautical Engineers. He served as a flight engineer in the Naval Air Corps during World War II in the Pacific

After college, Oustalet was a sales engineer for International Harvester in New Orleans. Louisiana. He entered the automotive field in 1948 as a truck sales specialist for Capital City Ford, Inc., in Baton. Rouge, Louisiana, where he worked his way up to general sales man-

Oustalet was selected to attend the Ford dealer training school in Dearborn, Michigan He founded his Ford dealership in Jennings, Louisiana in 1952 In 1959 Bubba Oustalet Ford, Inc., of Gulfport, Mississippi, was founded

A past president of the Louisiana Automobile Dealers Association, Oustalet was nominated for the TIME award by that organization. His nomination was supported by the Greater New Orleans New Car Dealers Association He is also a member of the National Automobile Dealers Association and the Mississippi Automobile Dealers Associa-

In addition, he was elected by the 6100 members as President and Chairman of Ford Motor National Dealer Council, Detroit, Michigan, as a director for 16 years of the Lincoln-Mercury Advertising Board, and as president and director for 21 years of the Ford Dealers Advertising Board. He helped organize the Ford Motor Company Marketing Institute, of which he was president in 1962.

Oustalet has led his dealership to many Ford Motor Company honors including a Distinguished Achievement Award for 22 of his 25

years as a dealer, and a Customer Relations Citation each year since its inception in 1973

He is a director of the Merchants Bank, Gulfport, Mississippi, and is a director of the American Bank in southwest Louisiana. Active in community affairs, Oustalet is Chairman of the Board of the Zigler Foundation, which, under his leadership, has constructed an art and cultural museum, given college grants to students and gifts to other projects in the area. He also has served as president of the Zigler Community Hotel Board for 10 years, and as a director of the Zigler Shipyard and Offshore Barge Company

In addition, he is a past president of the Jennings Association of Commerce, has served as vice-chairman of the Jeff Davis Boy Scout Council and as chairman of the Red Cross Blood Bank Committee In 1958 he was chairman of the Community Fund raising drive to help build the new American Legion Hospital He was also chairman in 1973 of Jennings Hospital Intensive Care

Fund Drive, and since 1965 has been chairman of Lake Arthur State Recreation Park

He was elected a member of the Young Presidents Organization of America and honored as a 25 year member of the Society of Automo tive Engineers

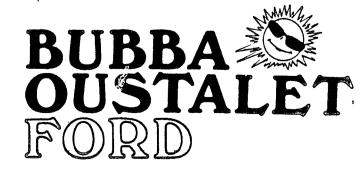

In political and educational affairs, Oustalet was a member of the governor's Consumer Protection Board in 1971 and appointed to the Governor's Staff in Louisiana and Mississippi. He has served five three year terms on the Louisiana State University Foundation, and annually provides cars for driver training programs in Mississippi and

His social memberships include the Diamondhead Country and Yacht Club, the Pass Christian and Gulfport Yacht Clubs and the Jeff Davis Country Club of which he was the first president

Oustalet is a Stewart Lay advisor to the Bishop of the Lafayette Catholic Diocese He has received many awards for this community activity

In 1958 he was named Citizen of the Year in Jennings. He was named Louisiana's Outstanding Young Businessman Outstanding Crizen of the Year the same year. In 1968 Louisiana State University honored him with a Distinguished Service Citation

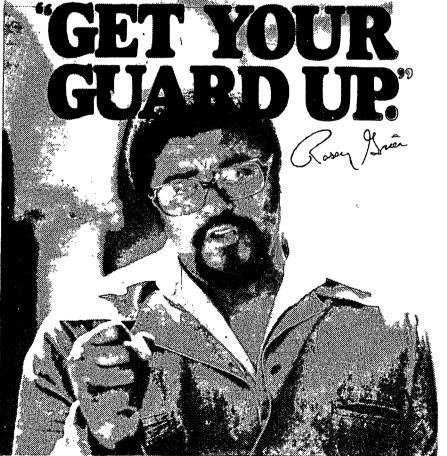

Oustalet and his wife, Lena Mae, maintain homes in Pass Christian Mississippi, and Lake Arthur, Louisiana. They have 10-children and eight grandchildren. Four of their children are associated with the dealerships A J M. Oustalet, III, is general manager of the Missis sippi dealership, R C is business manager of the Jennings dealership, and James and Lance are management trainees in the dealer

Summer vacation is coming to its end, and all of us young fishermen and fisherettes have to head back to school just as the fishing is starting to get good.

I'm really going to miss sleeping late in the mornings, fishing whenever I want to, and being just plumb lazy.

Bowhunters now is time to make sure all your archery equipment is in top shape. You should practice with your bow as often as possible, because if somehow you manage to escape the grasp of buck fever you want to be able to put your broadhead right in the ol' boiler-room of that recordbook buck when and if the opportunity arises.

I want to thank Mr. Smith, a camper at LaFrances Fishing Camp, for towing my brother and me into LaFrances Wednesday of last week after our motor broke down during a bad thunderstorm. Thank you very much, we don't know what we would have done if you hadn't come along

Jack Cameron, Tommy Sickman and John Anderson of the Hattiesburg-Petal area caught a mess of fish out of LaFrances one day last week Anderson had a redfish about twenty pounds and Cameron had one about 12 or 15 pounds, they also had an ice-chest full of other fish. They said they probably could have caught some more if the weather hadn't gotten so bad they couldn't fish The last I saw of them, they were heading back out to catch some more

Bob Lyons and a fishing companion caught a total of 60 mixed specks and bass last Monday in Jourdan River and Rotten Bayou. Lyons said they used live shrimp while they lasted then they used yellow beetle spins.

KILN: We've had a good bit of fishing going on. Mr. Whitfield and Mr. White caught 57 white perch in Bayou Talla using small minnows. C. J. Mauffrey and his family caught a few specks, rat reds and greentrout with live fresh-water shrimp, while fishing just north of the I-10 bridge on the Jourdan River. We have live shrimp, worms, crickets, and minnows along with various fishing equipment. We open at 5 a.m. and close at 6 p.m. (Andy Ladner, Andy's Bait Shop, at Kiln Supermarket).

PEARLINGTON: We had a pretty good weekend. Flyfishing is still real good for bream especially with a yellow popping bug. The white perch are starting to show up in good numbers, the best bait for them as to be small minnows. The river as a

### Animal shelter needed

"It's your problem, not ours", so said representatives from the Bay-Waveland Humane Society during the Monday meeting of the Hancock County Board of Supervisors.

The Humane Society's role is not one of maintaining an animal shelter, altho many of its members do in a small way, nor are they responsible for the collection and care of strays. Many people may have the work of the society confused with the duties of an appointed dog catcher or animal shelter supervisor. This is not the case. They are pledged to see that all animals are receiving humane treatment.

There is no pay involved for those in the society, they are working on their own time and at their own expense. They are, however, affiliated with the National Humane Society and carry voting rights with that organization.

The Monday re-visit to the Board of Supervisors got little notable response. They were not told any thing different, just the "same old song, different verse".

But as stated before, it is a problem for the county, not the Humane Society. But it is, in a sence, a problem for the society because they are the ones receiving the majority of calls and complaints. Their purpose in visiting the supervisors was to advise them of the wishes of the citizens of Hancock County, that being that something needs to be done to correct the dog and cat problem in Hancock County. They also asked if the county is going to attempt any correction of the growing problem.

The dog and cat situation is not a problem that will cure itself. It is not a problem that will go away. It is not a problem that can be cured overnight. It is a problem that needs attention, immediately, if not

We feel an animal shelter program should be started and believe it can be made to pay a majority of the cost involved. The initial cost will, we are sure, be substantial but in years to come the money returned will assist in the cost and maintenance of continuing such an operation. The revenue would come from license fees, pickup charges, care and feeding fees and release

As stated, it is not a problem that will go away...it will only continue to grow.

### Letters to the Editor

August 15, 1977

Bay St. Louis, Miss. 39520 c-o The Editor

Dear Sir

Sea Coast Echo

Would like to clarify a statement in Mrs. Brew's letter of last week's Echo, in the second paragraph. The reason Mrs. Brew couldn't find us is, because the Bay Waveland Humane Society is a Shelterless Society; the phone company won't give us a number, unless we have a specific building: meaning a conventional address, as a business, hence we have to give our residential home phone number, so as Mrs. Brew relates, she saw my number, after she had mailed her letter to Editor.

The public may contact us by using phone numbers, given in our weekly adoption ads in Sea Coast Echo. I talked to Mrs. Brew, a very fine

lady, who is a kind, gentle, dedicated animal lover.

I understand the problems of the people living in the County, have with stray animals. It touches us deeply, because we are unable to give practical aid, since the form of aid is to go to their homes and pick up these stray animals, such as dogs and cats. I repeat being a Shelterless Society, we cannot do this. We have to advise them to temporarily hold them, until I send in the Adoption Article, to the Echo, and when the paper comes out Thursday, the adoption calls, start coming to us. We have gotten favorable adoptions to private homes this way. Another method is to carry the strays to the Harrison County Animal Shelter, their facility is up to date, having separate compartments for puppies, grown dogs,

Really, isn't it a bit shameful that we have to depend on Harrison County to take our animals, at a cost to texpayers, at so much per head? We are eligible for Federal Revenue Sharing Funds, to build our own Shelter. As for the two Municipal Shelters, I quiver with fear for the poor beasts I've had so many reports and complaints, from the public as to conditions, at each of these shelters. I won't go into detail for

also cat room and hospital room, for the

reasons of space.
It is now up to the sapervisors, if we are to have the proper, decent Animal Haven, called the Hancock County Animal Facility."

In closing this lengthy letter, I wish to add, that officers in our Society have their quota, no less than six dogs and five cats each, not romaing at large bothering neighbors Thanking you for publication -

Very Sincerely,

Eleanor E. McFie, Secretary

TAKE THEM TO HARRISON **COUNTY HUMANE SOCIETY** SHELTER, WASHINGTON RD. IN GULFPORT. FOR FURTHER **INFORMATION CALL 467-9494.**  Governor Cliff Finch

JACKSON-For the first time in our history, our state has an Office of Planning and Coordination within the Governor's Office.

This office was established without the expenditure of additional state money in order to help us apply a more businesslike approach to the day-to-day activities of your state government.

The Governor and other elected state officials are charged with carrying out numerous programs, which must be carefully planned and coordinated if the people are to receive the maximum benefits.

Planning and coordination is necessary in order to avoid costly duplication and to eliminate unnecessary services.

Our state is making progress today as it has never before in its history. I believe that Mississippi's brightest days are just around the corner, and I believe that our state stands on the threshold of greatness.

We are a vital part of the rapidly growing Sunbelt Region; however, we want our growth to be orderly and in the best interest of all the people of Mississippi so that we might avoid the problems that have been encountered by other regions during periods when they experienced periods of unusual

The Planning Office can help us meet that goal. A major function of this office is to review and analyze state and regional plans to see that they are consistent with one another and are in line with our state's goals, objectives, and policies. The planning Office also serves a vital function by helping us evaluate the problems faced by our state and suggesting solutions.

Let me give you one example: Mississippi must file a Railroad Revitalization Plan if our state is to qualify for needed federal funds under the Railroad Revitalization Act. This is a complex subject, and it takes experienced and qualified planners to prepare such a plan. Without this plan and without those federal dollars, a number of our railroads in Mississippi which are in need of repair would not be eligible to receive federal assistance. And all the federal money that was allocated to Mississippi would either go to another state or be returned to the federal treasury.

In your daily life, you are aware of the value of planning your activities and your time in order that you might get the maximum benefits. The same principle is the reason we established the Office of Planning and Coordination in Mississippi. I am confident that this office will have a very favorable impact upon the future growth and progress of

### Whittlin' with Whittle

We join with millions of others who morn the death of Elvis Presley. Yep, we were a fan.

The Humane Society keeps plugging away for an animal shelter for Hancock County. It's something we need and very quickly.

You can add this one to your "believe it or nots". Just before the "Son of Sam" was arrested in New York, a story came across the wire that some store in the Big Apple was selling "Son of Sam T Shirts". You talk about pulling all the tricks in the book to make

### Crime Alert

Mississippi consumer report

A lot of school-aged young people are alert, agile, and fast on their feet. Excellent qualities for someone on the athletic field? Absolutely, but they are also talents being misused by many youths to make a dishonest dollarpurse snatching. These youthful criminals are constantly looking for an opportunity-a chance to grab an unguarded purse from an unsuspecting person and to take off with it after meeting little or no resistance. To discourage these young criminals and to avoid the loss of valuables and the headaches involved in replacing drivers' licenses and in obtaining new credit cards, keep the following

suggestions in mind: Don't carry a purse if you don't have to do so-consider carrying valuables and other necessary items in a pocket

Don't make yourself a particularly desirable mark by displaying a lot of money or leaving your purse open so that money or valuables are plainly

spicuously on the product.

We also noted with interest the comments of several people outside the jail after the arrest. There were those who shouted for Son of Sam to be killed..."Kill him". That's not the way it works my friend. He, like all others accused of crimes, must be given his day in court. His right, like all other Americans, to a fair trial must be protected.

We have noticed a lot of broken bottles, cans and trash thrown in the city's cemetery next to the ECHO. We have also noticed it is very dark along the street and feel additional lighting might keep some of the littering down. cemetery, but has apparently burned out. New bulb please.

Back to school means more than pencils and paper. James Finch, Commissioner of Public Safety, says back to school means in excess of 3000,000 children will be transported daily to and from public schools via buses on the State's streets and high-

"Some drivers get irritated because of frequent stops made and time spent waiting for children to enter and exit from the buses. All that can be said about getting irritated is the law reads

'The driver of a vehicle upon a street or highway upon meeting or overtaking any school bus which has stopped on the street or highway for the purpose of receiving or discharging any school children shall come to a complete stop and shall not proceed until the children have crossed the street or highway and the school bus has proceeded in the direction it was going.'

"Fortunately," Finch said, "the majority of Mississippi motorists respect and abide by this law. "As Commissioner of Public Safety, I

am issuing a special request to motorists and that is to please watch out for the 5,000 public school buses as they will be carrying our most precious cargo. School bus drivers are professionally trained and certified by the Department of Education. They have been instructed in courteous and defensive driving but safety is a community effort and the safety of our children should be foremost in the priorities of our motorists. It's the time of the year when drivers should expect school buses to be traveling and special attention should be given because the safety of our children is everyone's responsibility.'

Have a nice day.

### Back to school

School days are almost here again for millions of American youngsters.

With the approach of the fall term, the American Medical Association reminds parents once again that there are health and safety considerations that are important in preparing the small fry for another nine months of studies.

The AMA recommends a thorough health examination for 5 and 6-yearsolds who are starting school for the first time. Your physician will know what to do. His examination will cover all aspects of your child's health, and will encompass hearing (to make certain he can hear the teacher) and vision (to make sure he can see the blackboard). It is better if this examination can be made and booster immunizations given a few weeks before school starts. School boards in some communities

require a health exam for beginning students. Many schools also require certain immunizations against infectious disease. Your doctor will know of the requirements for your neigh-

Most doctors feel that four or five thorough health examinations during the school years are sufficient for healthy youngsters. These usually are spaced at the start of the first year. about the fourth grade, about the seventh grade, at the ninth or tenth grade, and upon graduation. A thorough examination is important if the child is participating in school athletics. The doctor should be told that junior is going out for football, so that he can look for any health problems that might be heightened by rough contact sports.

### Animal shelter needed

"It's your problem, not ours", so said representatives from the Bay-Waveland Humane Society during the Monday meeting of the Hancock County Board of Supervisors.

The Humane Society's role is not one of maintaining an animal shelter, altho many of its members do in a small way, nor are they responsible for the collection and care of strays. Many people may have the work of the society confused with the duties of an appointed dog catcher or animal shelter supervisor. This is not the case. They are pledged to see that all animals are receiving humane treatment.

There is no pay involved for those in the society, they are working on their own time and at their own expense. They are, however, affiliated with the National Humane Society and carry voting rights with that organization.

The Monday re-visit to the Board of Supervisors got little notable response. They were not told any thing different, just the "same old song, different verse".

But as stated before, it is a problem for the county, not the Humane Society. But it is, in a sence, a problem for the society because they are the ones receiving the majority of calls and complaints. Their purpose in visiting the supervisors was to advise them of the wishes of the citizens of Hancock County, that being that something needs to be done to correct the dog and cat problem in Hancock County. They also asked if the county is going to attempt any correction of the growing problem.

The dog and cat situation is not a problem that will cure itself. It is not a problem that will go away. It is not a problem that can be cured overnight. It is a problem that needs attention, immediately, if not

We feel an animal shelter program should be started and believe it can be made to pay a majority of the cost involved. The initial cost will, we are sure, be substantial but in years to come the money returned will assist in the cost and maintenance of continuing such an operation. The revenue would come from lieense fees, pickup charges, care and feeding fees and release

As stated, it is not a problem that will go away...it will only continue to grow.

### Letters to the Editor

August 15, 1977

Sea Coast Echo Bay St. Louis, Miss. 39520 c-o The Editor

Would like to clarify a statement in

Mrs. Brew's letter of last week's Echo, in the second paragraph. The reason Mrs. Brew couldn't find us is, because the Bay Waveland Humane Society is a Shelterless Society; the phone company won't give us a number, unless we have a specific building: meaning a conventional address, as a business, hence we have to give our residential home phone number, so as Mrs. Brew relates, she saw my number, after she had mailed her letter to Editor.

The public may contact us by using phone numbers, given in our weekly adoption ads in Sea Coast Echo. I talked to Mrs. Brew, a very fine

lady, who is a kind, gentle, dedicated animal lover.

I understand the problems of the people living in the County, have with stray animals. It touches us deeply, because we are unable to give practical aid, since the form of aid is to go to their homes and pick up these stray animals, such as dogs and cats. I repeat being a Shelterless Society, we cannot do this. We have to advise them to temporarily hold them, until I send in the Adoption Article, to the Echo, and when the paper comes out Thursday, the adoption calls, start coming to us. We have gotten favorable adoptions to private homes this way. Another method is to carry the strays to the Harrison County Animal Shelter, their facility is up to date, having separate compartments for pupples, grown dogs, also cat room and hospital room, for the

sick animals. Really, isn't it a bit shameful that we have to depend on Harrison County to take our animals, at a cost to taxpayers, at so much per head? We are eligible for Federal Revenue Sharing Funds, to build our own Shelter. As for the two Municipal Shelters, I quiver with fear for the poor beasts I've had so many reports and complaints, from the public as to conditions, at each of these shelters. I won't go into detail for

reasons of space.
It is now up to the stape visors, if we are to have the proper, decent Animal Haven, called the Hancock County Animal Facility."

In closing this lengthy letter, I wish to add, that officers in our Society have their quota, no less than six dogs and five cats each, not romaing at large bothering neighbors. Thanking you for publication

Very Sincerely,

Eleanor E. McFie, Secretary

JACKSON-For the first time in our history, our state has an Office of Planning and Coordination within the Governor's Office.

This office was established without the expenditure of additional state money in order to help us apply a more businesslike approach to the day-to-day activities of your state government.

The Governor and other elected state officials are charged with carrying out numerous programs, which must be carefully planned and coordinated if the people are to receive the maximum

Planning and coordination is necessary in order to avoid costly duplication and to eliminate unnecessary services.

We also noted with interest the

comments of several people outside the

jail after the arrest. There were those

who shouted for Son of Sam to be

killed..."Kill him". That's not the way

it works my friend. He, like all others

accused of crimes, must be given his

day in court. His right, like all other

Americans, to a fair trial must be

protected.

Our state is making progress today as it has never before in its history. I believe that Mississippi's brightest days are just around the corner, and I believe that our state stands on the threshold of greatness.

We are a vital part of the rapidly growing Sunbelt Region; however, we want our growth to be orderly and in the best interest of all the people of Mississippi so that we might avoid the problems that have been encountered by other regions during periods when they experienced periods of unusual

The Planning Office can help us meet that goal. A major function of this office is to review and analyze state and regional plans to see that they are consistent with one another and are in line with our state's goals, objectives, and policies. The planning Office also serves a vital function by helping us evaluate the problems faced by our state and suggesting solutions.

Let me give you one example: Mississippi must file a Railroad Revitalization Plan if our state is to qualify for needed federal funds under the Railroad Revitalization Act. This is a complex subject, and it takes experienced and qualified planners to prepare such a plan. Without this plan and without those federal dollars, a number of our railroads in Mississippi which are in need of repair would not be eligible to receive federal assistance. And all the federal money that was allocated to Mississippi would either go to another state or be returned to the federal treasury.

In your daily life, you are aware of the value of planning your activities and your time in order that you might get the maximum benefits. The same the Office of Planning and Coordination in Mississippi. I am confident that this office will have a very favorable impact upon the future growth and progress of

very quickly.

A lot of school-aged young people are alert, agile, and fast on their feet. Excellent qualities for someone on the athletic field? Absolutely, but they are also talents being misused by many youths to make a dishonest dollarpurse snatching. These youthful criminals are constantly looking for an opportunity-a chance to grab an unguarded purse from an unsuspecting person and to take off with it after meeting little or no resistance. To discourage these young criminals and to avoid the loss of valuables and the headaches involved in replacing drivers' licenses and in obtaining new credit cards, keep the following

suggestions in mind: Don't carry a purse if you don't have to do so-consider carrying valuables and other necessary items in a pocket

Don't make yourself a particularly desirable mark by displaying a lot of money or leaving your purse open so that money or valuables are plainly

#### pencils, and paper. James Finch, Commissioner of Public Safety, says Back to back to school means in excess of 3000,000 children will be transported daily to and from public schools via buses on the State's streets and high-

"Some drivers get irritated because of frequent stops made and time spent waiting for children to enter and exit from the buses. All that can be said about getting irritated is the law reads

'The driver of a vehicle upon a street or highway upon meeting or overtaking any school bus which has stopped on the street or highway for the purpose of receiving or discharging any school children shall come to a complete stop and shall not proceed until the children have crossed the street or highway and the school bus has proceeded in the direction it was going.'

"Fortunately," Finch said, "the majority of Mississippi motorists respect and abide by this law. "As Commissioner of Public Safety, I

am issuing a special request to motorists and that is to please watch out for the 5,000 public school buses as they will be carrying our most precious cargo. School bus drivers are professionally trained and certified by the Department of Education. They have been instructed in courteous and defensive driving but safety is a community effort and the safety of our children should be foremost in the priorities of our motorists. It's the time of the year when drivers should expect school buses to be traveling and special attention should be given because the safety of our children is everyone's responsibility."

Have a nice day.

# school

School days are almost here again for millions of American youngsters.

With the approach of the fall term, the American Medical Association reminds parents once again that there are health and safety considerations that are important in preparing the small fry for another nine months of studies.

The AMA recommends a thorough health examination for 5 and 6-yearsolds who are starting school for the first time. Your physician will know what to do. His examination will cover all aspects of your child's health, and will encompass hearing (to make certain he can hear the teacher) and vision (to make sure he can see the blackboard). It is better if this examination can be made and booster immunizations given a few weeks before school starts.

School boards in some communities require a health exam for beginning students. Many schools also require certain immunizations against infectious disease. Your doctor will know of the requirements for your neighborhood.

Most doctors feel that four or tive thorough health examinations during the school years are sufficient for healthy youngsters. These usually are spaced at the start of the first year, about the fourth grade, about the seventh grade, at the ninth or tenth grade, and upon graduation. A thorough examination is important if the child is participating in school athletics. The doctor should be told that junior is going out for football, so that he can look for any health problems that might be heightened by rough

KNOST REGATTA - Bay Waveland's skipperettes Club sailed to another GYA Capdevielle victory last weekend in Pass Christian Yacht Club's annual all-girl Knost Regatta. Mimi Eagan won the first race Saturday afternoon in a good breeze over second place PCYC and third place Southern Yacht Club. Judy McKinney and her crew won another first for BWYC in the second race, PCYC again econd and SYC third.

Cindy Stieffel sailed the third race with Judy McKinney and Mimi Eagan crewing and finished second to Leslie Weatherly of Gulfport Yacht Club, bringing the Knost Trophy back to Bay-Waveland for another year. PCYC was second and Southern Yacht Club third of the nine GYA clubs com-

SUNFISH NORTH AMERICAN CHAMPIONSHIP

Gulf Yachting Association was represented at the Sunfish North American Championship Regatta last week on Galveston Bay. Skippers from Bay-Waveland, Gulfport, Southern, Buccaneer and Pensacola Yacht Clubs entered the competition among almost a hundred Sunfish sailors from all over the United States.

Dennis Stieffel finished eighth in the fleet of twentyfour in the Junior Championship, then won the thirtysix boat series for the Founders' Cup, named after Alcort's founders, Alex Bryan and Cort Heyniger.

William Weatherly of Gulfport Yacht Club placed ninth in the Championship Series, qualifying for competition in the Sunfish Worlds.' Randy Santa Cruz finished sixteenth in the fifty-five boat fleet of the Championship After five grueling days of

racing, Glenn "Buddy" Brown emerged victorious as 116, 1977 Sunfish North, American Champion. presented at the seafood 6:30 p.m. All members are banquet to the first eleven place winners in the Senior Championship and the first ten places in the Founders' Cup and Junior Championship:

CHAMPIONSHIP SERIES Glenn Brown, Houston Yacht Club

Dave Chapin, Island Bay Yacht Club, Springfield, Ill. Michael Catalano, Oshkosh Sailing Club, Oshkosh.

Jan Hookensen, St. Croix Yacht Club, St. Croix, Virgin Íslands Derrick Fries, Crescent Sailing Club, Grosse Pointe,

Michigan Dave Hastings, Bay Sailing Association, Dover, Delaware Clark Thompson, Houston Yacht Club Yandell Rogers, Houston

Yacht Club William Weatherly, Gulfport Yacht Club

Johnson, education; Lou Courtault accepting for her late

mother, Mrs. Elba Courtaulf; J. Norton Haas, Sr., business

Ladies and Gentlemen, our American Legion Award for the Professions is presented to

In the category of Health the nightmare of Hurricane our award recipient is a very active and remarkable man, born and reared in New Orleans, La. He attended elementary school in N. O. at and Jesuit School on Baronne the residents of our area, he entered Charity Hospital. On St. John going forth to preach 21 in Bay St. Louis, Ms. He

attending St. It gives me great pleasure to Stanislaus College he was on the track team for the mile run and cross country distance and basketball team. At Tulane University he was on the track team for three years. His marriage to a fine young lady was blessed with 3 lovely children, 2 sons and a daughter. Their Golden Wedding Anniversary was celebrated this year with their wonderful family.

He served as Chief of Staff at the Ole King's Daughters and Sons Hospital on Carroll Ave. in Bay St. Louis. He also served on the staff of the Hancock General Hospital. He and an associate, Dr. Edith Ballard, began the first blood bank in Bay St. Louis at the end of World War II. During his outstanding medical career he treated patients at home throughout the entire Hancock County and did obstetric deliveries at home. He traveled in all sorts of bad night, always helping those he went through snow, sleet and rain to aid the people of Hancock County. Their good health was always his con-

He was President of the Merchants Bank & Trust Co.. also of the Merchants Ins. Co. He is still the school physician for St. Stanislaus College since Forty-one years of service to his Alma Mater. He was also school physician for the Old St.

Joseph Academy. This untiring man has harnessed an unlimited amount of energy during these past years. It's probably all due to his good "Stanislaus and Tulane track records."

He possesses the drive to continue to administer to the young and old people of this Community giving them all of his professional skills.

You just better watch out "When you call out in the deep of night - Wolfe!" You better mean it! Because you're going to see a big, good and wonderful Wolfe man at your front door! Ladies & Gentlemen our honoree, Dr. Marion J. Wolfe, Sr. BUSINESS AND PHILAN-

Our next awardee is active born in Kiln Community. He graduated in the St. Stanislaus Class of 1925 and in 1977 was elected to that school'a Hall of Fame in recognition for his assistance throughout the years. A few fast calculations will tell you that our award winner has been eligible for retirement for quite a few years. And indeed the amount of community good work he has accomplished sounds like the record of a man with a lot However, this is not the case. By day he has remained ac-

tive in his profession masquerading as a mildmannered realtor-overseeing his family timber and land business just as he has for the past 50 years. In his spare time he changes hats and fights for good causes with the drive and determination worthy of Superman. Such as: He served as a member of his church's Parish Council, acts as Scribe of the Pere le Duc Assembly of the 4th degree of Knights of Columbus. He is presently general chairman of the Capital Fund Drive for Our Lady's Academy. He once raised \$75,000 in a capital improvement campaign, for

the Boy Scouts Vee Bar Ranch. He was an organizer of the Bay St. Louis Rotary Club, as well as the Chairman and fund raiser elected to reorganize our Chamber of Commerce. He has served as a Judge on our Youth Court, has been a member of our local draft board and sat on the Hancock County Election Commission. And that is just for starters. He was very active in obtaining the Hancock General Hospital for our Community weather during all hours of the and served as the first president of its Board of legislation to create the Hancock County Port and Harbor Commission, was primarily responsible for the establishment of McLeod Recreational Park on the Jordan River and at the same time served on the Governor's Midas Committee to encourage new industry to come to our community. For three years he was chartered president of Hancock County Historical Society and is currently president of our

United Way. These are but a few of the highlights of 50 years of service to his fellow men. And he's also managed to give a good deal of time to his family - his lovely wife and 4 fine children, 3 sons and a daughter. His charity is as boundless as his energy and enthusiasm. And the help he has given to many has meant an opportunity for a new and

better life. Tonight we have a little something for this very remarkable man who has everything. It gives me great pleasure to present the American Legion Business and Philanthrophy Award to

and philanthropy; Mrs. Louise Lynch, professional; Com-

mander Richard Davis; Mrs. Verna Brennan, co-chairperson;

Dr. Marion Wolfe, Sr., health; Edward Brennan, accepting for

Fred Fisher, civic; George Wilhelm, outstanding legionaire of

In the category of Civic in Business and Philan- Interest our award recipient is throphy. A lifelong resident of a retired businessman who our county. Our honoree was has admirably demonstrated that retirement does not mean one must sit on the sidelines and let a lifetime of exof New Orleans he graduated in business administration from Tulane University before community. He worked for vears as a successful accountant retirement. His lovely wife has been his lifelong helpmate and together they have reared three children, one of whom is in New York City. Our honorees most outstanding and well known Civic ac-

complishment is the organization of the Hancock County Chapter of the American Association of Retired Persons and his service as its first president. All of which was done as a practical application of his belief that senior citizen's need every opportunity to lead happy, productive, secure But that accomplishment is merely a crowning glory of a life filled with volunteer work done in the best interest of his com-

munity, the state, and the nation. He is pastpresident of the Bay St. Louis Rotary Club, member of the Board of Directors and former Campaign Manager for the United Way of Hancock County. Also as a representative of the International Executive Service Corporation he spent three months in Brazil as an upaid volunteer advising that underdeveloped nation on more efficient business techniques. Besides these projects, he has donated his time and professional skills to

fishing on the Community

innumerable community

In fact, our honoree tonight is in Banff, Alberta, Canada, with his wife. They were committed to escort and direct an 18 day tour. He offers his apologies for

not being able to personally accept his Award and has asked my dear husband, Ed Brennan, to accept it for him. The recipient is Fred Fisher.

Now, we would like to thank ever vone for coming tonight to help us honor these distinguished men and women. And we also say "thank you" to all those who

# Courses

Twenty-one adult and six youth informal courses will be offered fall quarter by the University of Southern Mississippi Department of Community Services and Programs.

For adults, courses range from care of house plants to ballroom dancing. For the children, there will be beginning arts and crafts to The courses range in

duration from five to eight weeks.

A new course, Introduction to Computers for Hobbists, designed for persons with little or no background in computers as well as those with some electronics experience, will cover fundamentals of computer logic, basic computer architecture, computer programming for the hobbyist, input-output devices and a comparative evaluation of microprocessors and microcomputers suitable for hobbyist applications.

Two other courses, income tax preparation and aviation ground school, are offered once a year only.

Additional information can be secured from Community Services, Southern Station, Box 56, Haftiesburg, MS 39401 or by Tel. 266-7386.

A FATHER'S HELP - The lad at right has just caught a croaker and since he doesn't want anyone to take his fishing spot his father wades out to get his fish.

(ECHO Staff Photos and Story By ELLIS CUEVAS

The Fifth Annual Waveland Jaycee Kids Fishing Rodeo was held last Saturday at Garfield Ladner Memorial Pier in Waveland. The participants were divided into two groups, pier fishing and off pier fishing.

The day was highlighted with the awarding of prizes for the largest fish caught to the smallest. This year there were more than 250 boys and girls registered.

The day started off with a high wind blowing, which lasted throughout the rodeo. The Jaycees were helped by their wives and other volunteers in registrations, fish weighing and safety on the pier.

fisherladies fished throughout or two winners. the day and many parents could feel the effect of the a was only a first place winner wind and sun by the time the awarded a prize. awards were distributed. The Catfish, Jason Brockmier fish ranged in size of 25 pounds to one and one half ounce.

There was a large variety of fish caught, croakers and catfish by the hundreds, LePine speckle trout, redfish, ground mullet, flounders, etc.

The winners were as listed below: in the 6-12 year old pier fishing -Catfish, Dallas Powell.

awarded to more of the lucky boys and girls. The Waveland Jaycees wish to thank each and everyone for participating in the fishing rodeo, they will be looking forward to your return next year, to try your Waveland Rodeo Chairman

Flounder, Hilary Harris and thanks to each and everyone who helped make this rodeo a

WAITING FOR A STRIKE - Jason Wilcox, son of Mr. and Mrs. Marshall Wilcox waits for a strike in the Annual Waveland Jaycee Fishing Rodeo last Saturday. Jason is one of the more than 250 boys and girls entered in the fishing rodeo.

SURF FISHING - This lad seems to be surf fishing, or either trying to reach out further for the big ones last Saturday in the Waveland Jaycee fishing rodeo.

GIRLS FISH TOO - These girls, one of them camera shy, try their luck real close in because they heard that you didn't have to go far out for the big ones in Saturday's Waveland Jaycee Kids Fishing Rode.

AND THE WINNERS - Fishing rods and reels, landing nets, tackle boxes and even Waveland's Famous Po-Boys were just some of the items won by these smiling boys and girls at the Annual Waveland Jaycee Fishing Rodeo last Saturday.

WHERE'S MINE - Before the award were distributed last Saturday evening some of the fishing youth check and see just how big their fish stacks up to their neighbors. The bins were full of assorted fish big scale closing time at the Waveland Jaycee Rodeo.

HANDS FULL - Larry Matrana is all smiles as he wades through crowd with some of many prizes he won at the Waveland Jaycee Fishing Rodeo Saturday. Matrana and his brother Chris locked up the croaker division in the 6-12 year old category.

THE CROWD IS ON ITS EDGE - As the boys and girls wait for the next winner to be called there is excitement in the crowd. Many of the participants walked away with a prize that they will cherish for a long time in the Annual Waveland Jaycee Fishing Rodeo.

Submitting medical bills that are not itemized can delay payment of claims under the medical insurance part of Medicare, according to William D. Gladden, social security district manager in Gulfport.

"If the patient uses the 'payment-to-you' method of medical insurance payment," Gladden said, "the claim cannot be paid unless an itemized bill of services from the doctor or other medical provider is submitted with a completed Request for Medicare payment form."

Medicare medical insurance helps pay for doctor bills and many other medical expenses of people covered by the program. Claims are handled two ways - by the "payment-to-you" method or the "assignment" method.

"The patient is required to send in an itemized bill of service with his claim only if the payment-to-you method is used and the doctor or supplier does not complete Part II of the payment form,' Gladden said. "If the patient and doctor agree to use the assignment method, the doctor sends in the claim and Medicare payment is made directly to the doctor."

An itemized bill from a doctor must show the date, place, and description of each medical service involved - as well as the charge for each service. It must also show the patient's Medicare claim number exactly as it is shown on the card - including the letter at the end.

In the payment-to-you method, the patient sends in the claim with the itemized bill of services. Medicare payment may be made to the patient before or after the bill is settled with the doctor.

Claims are sent to the health insurance organization that handles the medical insurance claims, Medicare, Travelers Insurance Company, P.O. Box 22545, Jackson, MS 39205.

"Help in preparing Medicare claims is available at any social security office,' Gladden said. Ask for a free leaflet, How to complete the Request for Medicare Payment."

Medicare medical insurance is available to people 65 and over, to disabled people under 65 who have been entitled to social security disability benefits for 24 consecutive months or more, and to many people under 65

with permanent kidney failure.

The protection is funded by individual premiums and Federal revenues.

People can get information about Medicare by calling or writing any social security office. The Gulfport social security office is at O2O15 Pass Road. The phone number is 896-1323.

The Social Security Administration is an agency of the U.S. Department of Health, Education, and

### Soybean field days

#### announced

Mississippians interested in soybean production are invited to three soybean field days at Mississippi Agricultural and Forestry Experiment Station (MAFES) branch stations.

The Northeast Mississippi Branch, Verona, will stage the field day Tues., Aug. 23, the Brown Loam Branch, Raymond, Wed., Aug. 24, and the South Mississippi Branch, Poplarville, Thurs., Aug. 25.

The program for each branch station will begin 1 p.m. and cover variety development, weed control and cultural practices such as dates of planting and row widths. Participants will tour experimental plots and hear comments from researchers involved. Some of the projects to be seen have been funded by the one cent per bushel checkoff program of the Mississippi 'Soybean

Promotion Board. The soybean field days are sponsored by MAFES, the Mississippi Cooperative Extension Service, the Mississippi Soybean Association and the promotion

Q - Are there any advantages to converting National Service Life Insurance to permanent insurance?

A - There are advantages if the insured plans to keep the insurance protection in later life. Premium rates for permanent plans are more expensive than for term insurance initially. However, tour on the NEW nature trail term rates increase every five years while permanent rates remain the same. At older ages, term rates increase sharply and the insurance becomes extremely expensive.

Q - My husband was rated 100 per cent service-connected disabled at the time of his death, but died of nonserviceconnected conditions. Is my daughter eligible for dependents' educational assistance?

A - Educational assistance is payable to dependents of veterans who die of nonservice-connected causes while totally and permanently disabled due to serviceconnected disability.

HOUSEPLANTS -: AND clear plastic bags, and place them in a cool location out of Unfortunately, many house direct sunlight. If your plants plants die when the family is are in porus container, away on vacation. Often stand them on clay bricks friends cannot come over and placed in watertight contake care of the plants....so, tainers. Bring the water level

Reduce the light intensity to First, plan early. Decrease decrease evaporation. Plants

Don't stretch your luck water them so that their basic however - plants usually can need for water can be get along satisfactorily for gradually reduced. Plants about two weeks-any longer is will adjust to lower moisture very "ify"!!! And-flowering levels with out suffering plants are the most difficult of all...they often do not last. GARDENING TIPS

Aphids - sometimes called "plant lice" - are small, softfrom plants. Sometimes natural controls hold down the Aphid population - other insects often kill them.

Protect your trees from drought by starting summer mulching early. To hold moisture and insulate roots from overheating, use a light, airy mulch like peatmoss that won't rob trees of water.

Remember how important water is to growing things! In a tree's first two growing sessions it is important to soak trees thoroughly once a week if no rain comes.

Roses grow best where they have full sunshine all day. They will grow satisfactorily,

### Buccaneer **Crew Notes**

By LEIGH KOHNKE June Dearman of the City-County Library entertained the younger set early Friday afternoon in the Rec Hall. "Peter Pan" and "Dumbo" were the featured attractions. Friday night offered two craft films - "Basketry" and "Macrame." These were two films of instruction to teach

currently popular fads.

Saturday morning began

with a basketball clinic conducted by Kim Dedeaux. Dribbling, shooting and oneon-one contests were held with an overall point system determining the winner. To cool off later in the afternoon, a volleyball game took place in the pool. All ages joined in the fun. For those 16 and over, shuffleboard match was planned. First place was stolen by Mr. and Mrs. Gerard Simon of Greenwell Springs, LA. followed by Johnnie and John Whitlow of Bogalusa. Saturday night brought a bonfire on the beach. John Ross of Ocean Springs provided guitar music and

Sunday morning's plans were washed out by the rain. Had weather permitted, there was going to be a short guided just completed by the YCC under the leadership of Mike Cave. Everyone is invited to stop by and enjoy the trail located near the camp store. We're real proud of it - thanks Mike and YCC!!!

A sand castle building contest took place on the beach later in the afternoon. Two categories gave everyone a chance to show their talents. The first category, Sand Sculpture, was won by Mary Ross and Libby Whittington of Ocean Springs. The second, Sand Castles, was taken by Nickie Wiebelt and Troy

Keller of Metairie. Don't forget our fishing rodeo this weekend for ages 5-15. Registration begins at 6:00 a.m., Saturday at pavilion 3. No registration fee required.

possibility of misrepresen- applied for benefits, but tation, the application forms almost eight out of ten of them contain a statement above the had only a high school space for signature certifying diploma. that all information furnished in the application is true and correct. An additional statement is added to warn that the application is being made in connection with the receipt of Federal funds, that school officials may, for cause, verify the information in the application, and that deliberate misrepresentation program who had not comof information may subject the applicant to prosecution under applicable State and

In certain cases foster children are also eligible for these benefits. If a family has foster children living with them and wishes to apply for such meals and milk for them, it should contact the school. Under the provisions of the

criminal statutes.

policy, the principals will review applications and determine eligibility. If a parent is dissatisfied with the ruling of the official, he may wish to discuss the decision with the determining official on an informal basis. If he wishes to make a formal appeal, he may make a request either orally or in writing to St. Clare School Board, 234 So. Beach Blvd., Waveland; Sr. Francis Mayra at Annunciation School, Kiln, or J. D. McCullouch. Superintendent, Blue Meadow Road, Bay St. Louis.

If a family member becomes unemployed or if family size changes, the family should contact the school to file a new application. Such changes may make the children of the family eligible for reduced price meals, or for additional benefits such as free meals and milk if the family income falls at or below the levels shown above.

In the operation of child feeding programs, no child will be discriminated against because of race, sex, color, or national origin.

AMONG A GROUP of teachers who attended a Teacher Conservation Workshop recently at Perkinston were, (seated L-R) Mary Webb, Wiggins; and Camille Martin, Gulfport; (Standing L-R) Delores Martin, Wiggins; Nancy Johnson, Bay St. Louis; Sonja Palomaki, Long Beach. They are with Walter Dennis, Natchez, chairman of the Teacher Conservation Workshop committee. Sponsored by the Mississippi Forestry Association, the workshop provided teachers attending the latest information in conservation, with classrooms ranging from indoors to the forest itself. Interested educators wishing information about the 1978 workshops may write the Mississippi Forestry Association, 620 North State Street, Jackson,

Producers should watch for pod-feeding insects such as bollworms and stinkbugs. Soybeans can tolerate up to 35 per cent foliage loss before pod-set. However, during podset and pod-fill stages, a

> FALL GARDENING With proper care, a fall garden can provide a good supply of late season vegetables. However, fall gardening chores aren't easy. Plenty of hot August weather is ahead and insect pests will have to be controlled. Insects often cause more problems in the fall than in the spring because they've had all summer to multiply. Apply insecticides to control worms on your greens and stinkbugs on okra and tomatoes. Also, insect problems make it almost impossible to grow yellow summer and zucchini

may dictate treatment.

This Centers have an opportunity program was set in motion to to present their favorites -- help insulate and weather recipes for a cook-off contest. strip your homes and it will The winners for the Bay St. continue in effect until the said, but faculty members Louis contest were: First money allocated is depleated. may also volunteer to help. prize, Mrs. Esther Cuevas' egg plant, second prize, Mrs. Lela Curry, pound cake, third prize, Joe Petta, meat balls, fourth prize, Mrs. Vivian Colliere's Creole Jumbalya, fifth prize Mrs. Gladys Blake, lemon cake. Congratulations

### News in brief

CYO NEWS

On Thursday, Aug 11, the Annunciation Parish sponsored a skating party at Twin Pines Roller Rink in Waveland. Forty-eight parishoners, which included many members of the Infant of Prague CYO, participated in the party. The party was for all the parishoners of junior and senior high school age. One Father, one Brother, and three adult leaders accompanied the group. Although there were many bruised knees, everyone had lots of fun.

### Birth

ALLISON

Mr. and Mrs. Sam Allison of Bay St. Louis announce the birth of their second child and second son, William Chad, Aug. 5 at Gulfport Hospital. He weighed eight pounds, 10

### **Examinations** set by Coast Guard

Safety Detachment from New Orleans will be examining small boats in the Gulf Coast area during the weekend of Aug. 20-21.

Chief Elmore and his crew would like to tell folks in the area that they must have one Coast Guard approved personal flotation device for each person on board including skiers. All devices must be in good and serviceable condition with no broken or missing straps or torn covers. They must be readily accessible, capable of being reached quickly and safely for effective use under all conditions. Boatmen should remember that ski belts are

not Coast Guard approved

REMEDIAL CLASSES
